

## The Hollies Surgery

The Summary Care Record (SCR) is a summary of a patient's allergies, sensitivities & current medication uploaded to Spine so that it can be accessed by any legitimate carer, regardless of the computer system they use.

The circumstances when this is beneficial include when a patient is seen at a hospital or Out of Hours unit or when a temporary resident is seen at a GP practice.

We share your records with other healthcare professionals. This allows us to share essential information regarding your medical needs and to help make a clear clinical judgement.

Please sign the declaration of your preference.

I \_\_\_\_\_ consent to SCR and Records Sharing.
